2023
AUTUMN/WINTER
TRACTORS & UTVs 24-140^{HP} CATALOGUE

A MESSAGE FROM THE GENERAL MANAGER

Welcome to the Kioti Autumn/Winter catalogue 2023. We are pleased to introduce the bold, new Kioti HX Series 130-140hp tractor into the Australian landscape.

This impressive model has a new powertrain developed and manufactured in-house by the Kioti R&D department. This new powertrain includes a 4-cylinder 3.8 litre diesel engine and 8 speed powershift transmission. The HX Series tractor will compete powerfully in all farming applications.

In an exciting step for the evolution of Kioti in Australia, we are very proud to announce our Platinum Partnership with the Carlton Football Club for both the AFL and AFLW programs for the next two years.

As part of this partnership, you will see the Kioti brand front and centre on polos, club training uniforms, media banners and game day changeroom signage, as well as product display activations throughout the season. This will give nationwide brand coverage for Kioti during televised AFL broadcasts.

Greg Clark KIOTI AUSTRALIA

OUR 4 YEAR WARRANTY

All Kioti tractors ranging from 25hp up to 140hp come with a standard two year or 1500 hour warranty covering all components on the tractor.

To complement this great coverage Kioti tractors have an additional Driveline coverage to a maximum of four years or 2000 hours for all models, which is standard with every tractor purchased (excepting K9 UTV, which comes with a standard 2 year warranty).

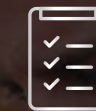

This coverage is a manufacturer's coverage and not offered by a third party insurer and has no extra costs

or excess required to be paid. A basic overview of the coverage includes engine, transmission, differentials, axles and all parts contained therein.

So, for four years or 2000 hour warranty, your Kioti tractor will have coverage on all major components and everything in between.

[°]24 months 1500 hours Full Warranty. 48 months 2000 hours Powertrain Warranty.

PFGCREDIT

FIXED INTEREST
RATES

LOAN SECURED
BY EQUIPMENT ONLY

PFG CREDIT has been in operation for 15 years across the whole PFG Australia product range.

Our various finance packages ensure equipment repayments are tailored to your own cash flow requirements, whether that may be monthly, seasonal, or annual. A facility can be designed to conserve working capital, budget on a fixed rate, and select fixed term and fixed repayments to suit your individual farming needs.

PFG Credit allows clients to acquire equipment without a heavy initial down payment, which means you can pay for it from your operating budget and not from your capital reserves. This allows you to free up capital that can be used to grow other parts of your business.

CS SERIES

FREE FRONT END LOADER + 4 IN 1 BUCKET INCLUDED

Perfect for the owner who has small acreage, this tractor features a 3 cylinder 25hp engine with a large power output and low fuel consumption giving you hours of continuous work.

The large, open step-through platform enables easy accessibility, free of obstructions, when getting on and off, alongside an ergonomically designed work station that places all operator controls within easy reach.

With its twin pedal controlled HST, the CS2610 is built to be user friendly during mowing, front end loader work or any other day-to-day tasks at hand.

This tractor also includes 4WD, power steering as standard, 2 range HST transmission, 318kg rear lift capacity, wet disc brakes and industrial tyres.

Optional accessories include a 60 inch mid-mount mower deck and also a backhoe with a digging depth of 2.13m.

NX SERIES

FREE FRONT END LOADER + 4 IN 1 BUCKET INCLUDED

The NX Series gives you premium quality and high specification. CAB and ROPS models are both available in a 60hp, 3 range twin pedal HST transmission with link pedal (auto throttle), anti-stall system and 2x rear remotes standard.

The state of the art cabin provides the user with better visibility and improved noise protection, as well as air-conditioning and heating - just like all the luxuries you're used to in the car.

The newly designed bonnet enables quick and convenient access for maintenance and, once again, there is plenty of room to enter and exit this tractor without obstructions.

Electric switch PTO engagement, diff lock, 36.4L/PM at remote and a 1,605kg max rear lift capacity are also standard features of the NX.

RX SERIES

FREE FRONT END LOADER + 4 IN 1 BUCKET INCLUDED

The RX Series is a versatile workhorse that will suit a variety of applications, such as vineyard work and loader work, and is compact enough to do smaller jobs around the farm.

Deluxe CAB and ROPS models are available ranging with engine options of 60, 70 and 80hp.

The RX8030 comes with a 4 cylinder Common Rail direct injection engine and, matched with anti-vibration technology in the cabin, gives the operator smooth working conditions.

The RX 7030/8030 feature a 24 x 24 transmission, forward/reverse powershuttle, 2 rear remotes as standard, power steering, and independent rear PTO.

The RX6030 cabin comes with a 24x24 forward/reverse synchro shuttle.

THE **NEXT** CHAPTER

HX SERIES
130 - 140^{HP}

THE NEW STANDARD FOR HIGH-END TRACTORS

Kioti has entered its next chapter - a premium tractor with a luxurious design and extreme power thanks to top-of-the-line specs.

The ergonomically designed cabin reduces fatigue and maximises convenience for the driver. Ease of operation was at the forefront of development of the HX, so the electronic armrest and Powershift lever are conveniently located on the right-hand side.

A premium passenger seat is a feature of the spacious cabin, creating an environment where comfort is the overriding priority.

The curved window shield meets the roof, providing maximum peripheral vision. This enables accurate and safe loader operation, as well as an incredible view from the cab. And that's just the beginning of the HX...

ENGINE

Built with a 3.8L 4 cylinder diesel engine at either 130hp or 140hp, the HX achieves optimum engine performance, thereby increasing work productivity.

3 POINT LINKAGE

The electronic controlled 3-point linkage system boasts a 4852kg lifting capacity, allowing for the installation of multiple working implements.

MULTI-FUNCTIONAL ARMREST

The multi-functional electronic armrest features numerous functions, such as throttle engagement, 3-point linkage lift and lower, Powershift and Auto Powershift mode.

EXTERNAL CONTROLS

The addition of rear fender remote and PTO switches increases the convenience of both the removal and attachment of external implements.

POWERSHIFT

A simple button operation on the side speed lever and armrest gives you a 32x32 transmission with an 8-speed Powershift in 4 ranges.

HYDRAULIC REMOTES

Changing or removing implements is light work on the HX, thanks to the four external rear hydraulic ports and one-handed quick couplers. Flow at the remotes is 118 L/min.

SUN ROOF

A transparent sunroof inside the cabin ensures an upward clear vision when using the loader, improving ease of operation and safety.

LIMITED SLIP DIFF

The use of a LSD front axle prevents the occurrence of slippage due to the load difference of the front wheels. This creates traction, greatly aiding manoeuvrability in any conditions.

LOADER JOYSTICK

The multi-functional loader joystick is built with 3rd service and Powershift buttons, simplifying loader working conditions for the user.

LOAD SENSING

Load Sensing provides optimal hydraulic pressure and flow rate for load sensing operations. This results in automatically neutralising valves in the event of high loads during operation.

STEERING WHEEL

Smooth handling thanks to the steering wheel angle/height adjustment setting creates an optimal driving position, improving workability and comfort.

TYRES

The use of radial tyres allows for a comfortable drive with low vibration. A strong friction force means towing work is a breeze for the driver.

HX SERIES

FREE FRONT END LOADER + GP BUCKET INCLUDED

The HX Series is very much the premium division of Kioti. These are the ultimate utility tractors, with a sturdy, imposing footprint ideal for rugged paddock work, heavy duty lifting, road travel and all manner of towing implements.

They are made tough, backed by Kioti's peerless reputation for reliable and highly manoeuvrable models. Thanks to the HX's boost in lifting capacity, they are also widely applicable – be it land cultivation, baling, moving dense materials or pulling trailers, sprayers, feed mixers or mowers.

The 4-cylinder turbocharged, 3.8 litre engines are Daedong built, with outputs at 130hp and

140hp respectively. Each model features a 8 speed Powershift 32x32 transmission, with auto powershift, 'Hi' / 'Low' range and creep range. The top speed is a pinch over 40 km/h, with creep speed at 0.38 km/h.
