BRUSH CUTTER

GET OBSESSED WITH THE EFFICIENCY.

You'll love the precision and remarkable results you can achieve with a Cub Cadet professional brush cutter. The heavy-duty Mitsubishi engines have all the power you need to take on taller, tougher grass. Add the wide cutting swath as well as ergonomic extras and you will discover a Cub Cadet brush cutter is simple to use putting you in total control.

PROFESSIONAL MITSUBISHI ENGINES

Features professional Mitsubishi engines made in Japan for superior performance. Choose from either the 24 or 27 series 2-stroke, heavy-duty full crank engines for those tough jobs.

ERGONOMIC HANDLES

Choose from loop handles with a soft rubber covering for comfortable handling or the bullhorn handle ideal for slashing larger yards or overgrown lawns with ease (shown).

COMFORT HARNESS

The Cub Cadet brush cutter range comes standard with either a single or double (CC927U only) harness to make trimming, cutting and slashing more comfortable, particularly when cutting for long periods.

**CC924HT DOUBLE-SIDED
HEDGE TRIMMER**

**CC927LH LONG REACH
HEDGE TRIMMER**

GET OBSESSED WITH EASY, POWERFUL, HEDGE TRIMMING.

Cub Cadet professional hedge trimmers are designed to give you flexibility. The professional Mitsubishi engines give you the power and heavy-duty, double-sided blades provide the precision for a superior cutting performance. With either a swivel handle for easy, comfortable cutting or a long reach swivel head for harder to reach and taller hedges, a Cub Cadet professional hedge trimmer will put you in control to satisfy all your hedge trimming needs.

▶ **PROFESSIONAL MITSUBISHI ENGINES**

Features professional Mitsubishi engines made in Japan for superior performance. Choose from either the 24 or 27 series 2-stroke, heavy-duty full crank engines for those tough jobs.

▶ **EASY & COMFORTABLE TO USE**

The Cub Cadet hedge trimmer range is comfortable to use. The CC924HT features an easy to use 180° swivel handle for comfortable trimming. The CC927LH features a 270° swivel blade head that gives you better reach as well as angle cutting for straight up, higher trimming.

▶ **HEAVY-DUTY CUTTING**

The heavy-duty, double-sided cutting bars on the CC927H (21") and the CC924HT (24") cut more in less time, saving you time and energy.

Drive it...we DARE you!

&

WARRANTY

2 year unit domestic warranty. 90 day unit commercial warranty.

2 year engine domestic warranty. 90 day engine commercial warranty.

GET OBSESSED WITH THE POWER TO CUT IT ALL.

The Cub Cadet wheeled string trimmer has the power to clear tall and thick grasses, heavy brush as well as other vegetation making it ideal for larger, tougher jobs. The offset deck means the trimmer can be used against walls and fence lines while walking in a straight line. Easy to use and manoeuvre, the trimmer cuts through difficult areas with ease and puts you in control.

▶ SIMPLE HEIGHT ADJUSTMENT

Easily change the multi-position cutting height. Lower for trimming along fences, retaining walls and structures; higher for long, thick weeds in a field.

▶ EXCEPTIONAL HANDLING

The ball-bearing wheels give remarkable manoeuvrability on uneven terrain. The offset head design easily cuts around obstacles like fence lines and corners.

▶ POWERFUL PERFORMANCE

With a powerful Kohler®, 4-stroke engine, tackle the tough stuff without worrying about bogging down.

GET OBSESSED WITH THE POWER AND PRECISION.

The XT2 Enduro Series delivers even higher levels of power, control and precision. Cub Cadet XT2 ride on mowers are ideal for more challenging terrain as well as hauling with responsive handling, versatility and the durability you can trust.

Performance Package

- Powerful engines: Cub Cadet® EFI (LX 42) or Cub Cadet-Certified Kohler® V-Twin (LX 46)
- High-output battery: Optimal starts in all weather
- Keyless engine start: Easy push-button control (LX 42 EFI only)
- Enhanced durability: Heavy-duty front wheel bearings
- Choice of pressed steel deck (LX 42) or extra-tough fabricated deck (LX 46)
- Improved traction: Multi-Trac tyre tread standard; auto traction control
- Added protection and comfort: Front bumper and high-back seat with armrests standard

STRONGER ENGINE CHOICES

The LX 42 with a 679cc Cub Cadet® Electronic Fuel Injected (EFI) engine (shown) helps to reduce maintenance, providing up to 25% less fuel consumption of an equivalent carburettor. The EFI engine also offers Push Button Start (PBS) giving you keyless starts – just push a button and go. The LX 46 ride on mower features a powerful Cub Cadet-Certified 22hp Kohler® engine for larger, more challenging areas.

AUTO TRACTION CONTROL

Automatic locking rear differential for all weather conditions and cutting terrains available on both the LX 42 and LX 46.

POWERFUL CHOICES

EXCEPTIONAL CONTROL

Cub Cadet has created the industry's strongest lineup of zero turn riders — all designed to deliver the ultimate control, precision performance and beautiful results. Whether it's a traditional lap bar or innovative of steering wheel control.

SYNCHRO STEER™ TECHNOLOGY

Zero turn technology with zero learning curve. Four-wheel steering with steering-wheel control reduces mowing time and provides the ultimate stability on hills. Plus, the patented synchronised steering system minimises turf damage for an unbeatable cut.

LAP BAR CONTROL

Achieve beautiful results while significantly cutting mowing time compared to a traditional rider. Agile handling is combined with incredible comfort features like easy-adjust lap bars with full-length comfort grips and plenty of leg room.

PRECISE CUTS

The difference is in the deck. With a suite of versatile options, Cub Cadet zero turn mowers offer expertly designed decks to help you tackle the job. Choose from stamped or fabricated decks for a precision cut that leads to superior results.

STAMPED DECKS

Stamped decks are engineered for greater air flow and an even cut. When clippings move through the deck more cleanly and efficiently, the blades cut the grass without any obstructions, leaving you with a pristine lawn.

FABRICATED DECKS

The strength of the fabricated deck starts in the design and ends with unparalleled durability. Not only do you get the quality cut you expect from a Cub Cadet zero turn mower, you have the added durability to withstand tough jobs time after time.

PRO SERIES

BUILT TO ONE STANDARD. YOURS.

We asked commercial users what they expect and demand from their equipment and then started from scratch.

Designing every element of our commercial line with the professional in mind, we put them through rigorous testing, not finalising our design until we addressed the common setbacks landscapers experience.

The result is a quality professional lineup, from the Cub Hydro-Walk through to our toughest Commercial Pro Z Zero Turn, that lets you take on long seasons of demanding work with confidence.

WITH POWER COMES OPTIONS

The Cub Cadet PRO Series is loaded with thoughtful features designed for exceptional performance, unmatched comfort and beautiful results. How you harness this powerful package is up to you. Whether you choose lap bar control, self-propelled walking mower or steering wheel option, you can expect a mowing experience that's second to none.

UNRIVALED STEERING WHEEL CONTROL

Our steering wheel option — an exclusive in the commercial category — increases productivity, mowing hillsides and terrains that lap bars can't handle.

- ▶ Reduces mowing time by up to 10% compared to lap bar models.
- ▶ Delivers true zero turn handling, less overlap and straighter lines.
- ▶ Four-wheel steering for unmatched hillside stability.
- ▶ Hydro Walk with standard Sulky offers effortless self-propelling mower.

TRADITIONAL LAP BAR CONTROL

The user-centered design of the new PRO Z Series makes traditional lap bar control better than ever.

- ▶ Performance tuning provides better response, resulting in faster cutting.
- ▶ Agile handling and improved comfort via quick-adjust knobs and full-length comfort grips.
- ▶ Integrated automatic parking brake system.

UNBEATABLE IN EVERY ENVIRONMENT.

Cub Cadet's professional hydrostatic drive walk behind mower, the PRO HW Series, is built for maximum performance and minimal downtime. With innovative steering technology, durable deck and rugged construction, this professional walk behind is tough enough to tackle tough terrain in every environment.

UNMATCHED STEERING CONTROL

Optimal weight distribution & large tyres maximise stability on hillsides and slopes, while hand-lever steering control uses less force to steer the mower meaning less fatigue.

EASY CONTROL

Straight-line adjustable tracking allows for on-the-go straight line adjustments with the turn of a knob and cruise control gives ultimate speed control so you can mow at your own pace.

DURABILITY AT ITS CORE

The 10-gauge steel deck shell with 7-gauge top and bottom reinforcements ensure that this cutting deck can take a beating. A 7-gauge leading edge and 1/4" side reinforcements add to the all-round heavy-duty construction. Maintenance-free sealed spindles maximise performance and reduce downtime.
