

Husqvarna LB 144i without battery and charger

Built on Husqvarna's trusted quality, design and performance, the LB 144i is a compact and lightweight battery lawn mower that's as easy to use as it is to store. With dedicated mulching deck and intuitive controls, you'll manoeuvre easily and achieve great cutting results even in complex areas. Part of the Husqvarna 36V battery system, smart features like SavE and Power Boost optimise runtime. To store, simply fold it away for a smaller footprint and smarter storage.

Power Boost

Automatic increase of blade speed when mowing in tough conditions means extra power, without you having to make any adjustments yourself.

Easy adjustable handle

Foot-operated handle adjustment for comfortable and ergonomic handling. Two different heights are possible.

Central cutting height adjustment

Quick and easy adjustment of the grass cutting height. One lever controls the whole deck.

Low Carbon Emissions

By choosing this product, you can feel confident that it produces lower carbon emissions during active use compared to a traditional petrol product. This battery-driven product does not emit any CO₂ during use while still providing the power and quality that you expect from a Husqvarna product. However, it's important to note that CO₂ emissions are generated during other stages of the product's lifecycle, such as production, charging and end-of-life disposal.

FEATURES

- Quick and easy adjustment of the grass cutting height. One lever controls the whole deck.
- Foot-operated handle adjustment for comfortable and ergonomic handling. Two different heights are possible.
- Automatic increase of blade speed when mowing in tough conditions means extra power.
- This product does not emit CO₂ emissions during use.
- The low noise provides a comfortable work situation and low disturbance for others.
- Quick-lock levers to easily fold the handle and minimise space needed during storage and transportation.
- Bail and bailstop ensure effortless start and stop without risking accidental starts.
- Husqvarna's flexible 36V system BLi-X offers battery power for everything from light and demanding homeowner tasks to professional use.
- SavE™ mode maximises the run time by lowering the rpm and is ideal for tasks that do not require full power.
- Easy-to-grip handles in front and rear facilitate lifting into storage spaces, the car, or carrying up stairs.

Technical Specifications	
BATTERY	
Battery charger	Not included
Battery	Not included
Battery type	Li-Ion
Battery voltage	36 V
CAPACITY	
Net power at preset rpm	3200 rpm
Power output	0.75 kW
DIMENSIONS	
Article gross weight	19500 g
Article net weight	16000 g
Collector volume	0 l
Cutting width	44 cm
Handle height adjustment	2 Step
Weight (complete product w/o side packed articles)	15.5 kg
Wheel size, Front	178 mm
Wheel size, Rear	178 mm
Wheelbase	54 cm
EQUIPMENT	
BioClip® kit	Not available as accessory (NOT AVAILABLE)
