

MH5™

Large Area Cylinder Mower

The Jacobsen MH5 tractor-mounted large area cylinder mower provides a unique, cost-effective alternative to traditional reel mowers. With the ability to mow or verticut, the MH5 turns your tractor into a versatile and efficient turf maintenance tool. Achieve excellent ground contour following and productivity with fully floating cutting units and a 3.43 m (135 in.) width-of-cut. Each cylinder is hydraulically driven with enough power and ruggedness to handle even the toughest conditions.

- **Simple design** for easy operation and maintenance.
- **Controls allow the selection of 5, 4 or 3 cylinders** to maintain tight spaces
- **When cutting with 3 cylinders**, full power is provided for exceptionally tough conditions.
- **Peak performance is maintained** in the highest worldwide ambient temperatures with an oil cooler using a thermally actuated electric fan and a large capacity reservoir.
- **Cylinder drive** operates in forward for mowing or reverse for easy backlapping.
- **Easily mounts to a tractor** three-point hitch (Cat 1 or 2).

QUICK SPECS

Drive: Hydraulically driven using tractor PTO (standard 3.5 cm (1.38") diameter, 6-spline, 540 RPM)

Mount:
Three-point hitch - Category 1 or 2

Horsepower Requirements: Minimum 29.2 kW (40-hp) tractor, 36.7 kW (50 hp) recommended

Reels:
5-gang reel setup with 6 or 8-blade 19.7 cm (7.75") diameter cylinders; verticut cylinders available

Height-of-Cut: 0.9 cm - 3.6 cm (0.35" to 1.4")
depending on type of bottom blade used

Width-of-Cut: 3.43 m (135")

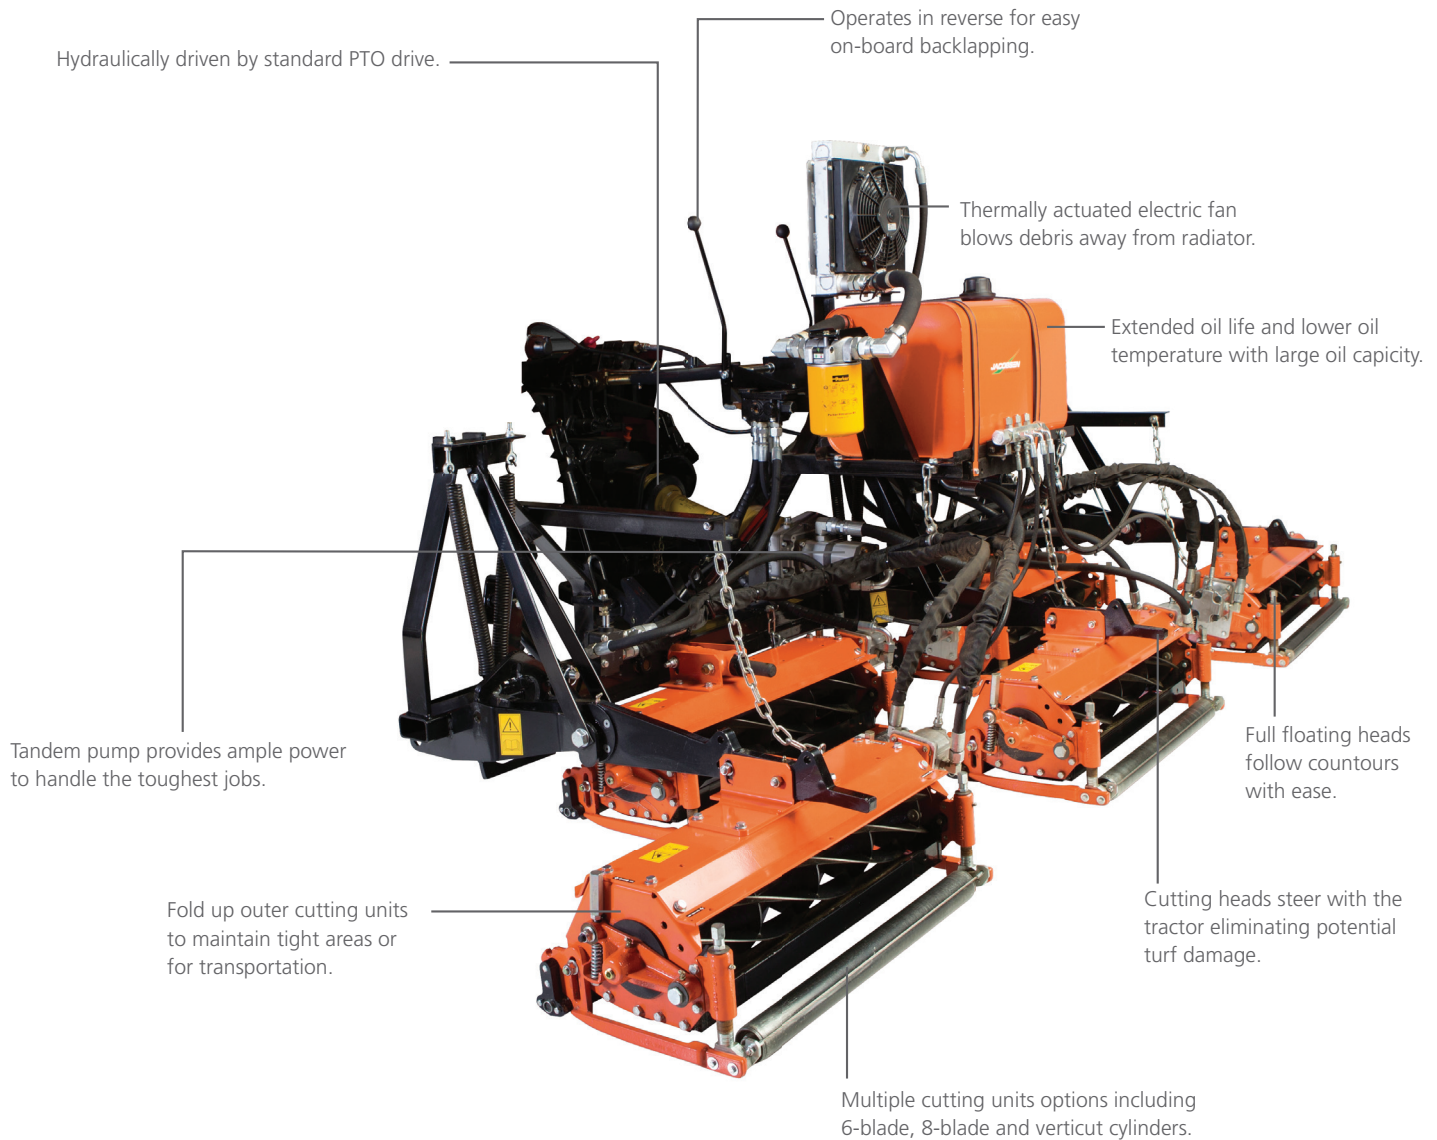

Weight: 600kg (1,323 lbs.)

Maximum Transport Width: 2.5m (98")
