AUTUMN/WINTER 2022

# BUILT WITH MORE **BITE**

## **A MESSAGE FROM THE GENERAL MANAGER**

Welcome to the Kioti autumn catalogue. What an amazing country we live in and what crazy times we have endured over the last two years.

Banjo Paterson wrote a poem with these famous words: *“I love a sunburnt country, a land of sweeping plains, of ragged mountain ranges, of droughts and flooding rains. I love her far horizons, I love her jewel-sea, her beauty and her terror - the wide brown land for me!”* In Banjo’s words it sums up everything we have had to work through as a nation.

There are new words that have become normal in our everyday life: Global Pandemic, COVID-19, Delta, Omicron, Alpha, Supply Chain, Lead Time, Face Mask, Vaccination Certificate, Delayed, Drought, Bush

Fire, and Flooding to name a few. Although there have been challenges for so many industries and businesses during these times, the agricultural and lifestyle farming sector has grown considerably in Australia.

The Kioti tractor factory in South Korea is working double shifts to help meet the demand from this growth. Over the coming months we will see the warehouse and dealer stock increase to continue our 100% commitment to our dealer network and our customers. Here’s to looking forward to a brighter future.

**Greg Clark**  
KIOTI AUSTRALIA

**MANUFACTURED IN SOUTH KOREA  
FOR AUSTRALIAN CONDITIONS.**

## **OUR 4 YEAR WARRANTY**

**All Kioti tractors ranging from 26hp up to 115hp come with a standard two year or 1,500 hour warranty covering all components on the tractor.**

To complement this great coverage Kioti tractors have an additional Driveline coverage to a maximum of four years or 2,000 hours for all models, which is standard with every tractor purchased.

This coverage is a manufacturer's coverage and not offered by a third party insurer and has no extra costs or excess required to be paid.

A basic overview of the coverage includes engine, transmission, differentials, axles and all parts contained therein.

So for four years or 2,000 hour warranty your Kioti tractor will have coverage on all major components and everything in between.

\*24 months 1500 hours Full Warranty. 48 months 2000 hours Powertrain Warranty.

Perfect for the acreage or block, here is Kioti's standout sub-compact CS2610.

## CS SERIES

26 HP

Amanda Davies (left) from Geelong Rural stands alongside Sally Galbraith and her Kioti CS2610 on her property at Freshwater Creek.

Intuitive, logical and versatile, whether you are digging, grading, spraying, mowing or shifting, the tough, sub-compact Kioti CS2610 is a clever and nuggety multi-functional lifestyle tractor. Owners regularly report that their much-loved Kioti has saved them hours of labour, powered by an eco-friendly engine that generates solid torque and is remarkably light on fuel consumption.

The original sea changers, Sally Galbraith and her husband bought 50 acres at Freshwater Creek on the Surf Coast in Victoria many years ago, where Sally indulged her passion for horse riding. As the activities on their property changed, they turned to Kioti. And it's a real family affair, with two Kioti tractors at the Galbraith's and a third soon to be delivered to their son.

Sally chose the CS2610 and needed a rake and 4-in-1 bucket for working on the grounds, in order to scoop, grab, level and grade. Being new to tractors, Sally admits she was a little tentative at first.

"I'm quite inexperienced in using a tractor but I'm getting better," she says. "I no longer ride horses but my husband has very much taken to improving pastures and growing hay. My Kioti gets into places in the garden that his bigger tractor couldn't and its functioning is self-explanatory."

Sally bought her Kioti CS2610 from Amanda Davies at Geelong Rural and says, "Amanda is very passionate about what she does, which is great. She takes a real interest in her customers and sets an example for other women to pursue what they want to do."

Towing Jayco caravans every day is no sweat for Kioti's gutsy CK4220.

## CK SERIES

30 - 42 HP

Christian Barnett (left) and Luke Stammers (far right) from Goulburn Valley Ag are pictured with Chris Ryan from the Jayco caravan production factory in Dandenong.

Australia's biggest RV manufacturer Jayco needed a compact tractor with enough grunt to move caravans around their site in Dandenong, Victoria. The company makes 300 caravans every week and each one must be towed through the testing stages and ultimately to dispatch. Kioti's CK4220, the gutsy 42 hp all-rounder, caught their eye. So much so, they bought three.

Jayco's chairman, Gerry Ryan, has interests in Nagambie and it was suggested Goulburn Valley Ag in Shepparton could help with supplying tractors. As a result, the company ordered three Kioti CK4220 HST cab models last year. Two were delivered before Christmas and the third arrived in January.

"Our boss knew the dealership and it worked out really well," says Colin Kerr, Jayco's maintenance manager. "The Kioti is the right size for us and powerful enough to haul everything we make. We burn out a lot of clutches and gears [on other tractors], so the hydrostatic gearbox is a winner. It's just a great, compact tractor, built nicely and exactly what we need."

Colin did the deal with Luke Stammers from Goulburn Valley Ag, who subsequently visited the Jayco site for the delivery process of the CK4220 tractors and briefing of the onsite drivers.

"We understood right away what the guys at Jayco needed," says Luke. "They use a Hayes hitch attached to the tractor's three-point linkage to tow around their vans. It means they're on and off the tractor constantly, and frequently engaging forward and reverse. That's where the advantage of the twin pedal hydrostatic transmission comes in."

With unlimited versatility, Kioti's dynamic EX5310 is the ultimate workhorse for your farm.

## EX SERIES

53 - 58 HP

Kelly Matthews (far left) and Shannon Hogg (far right) from The Tractor Company stand with Braith Trimble and his EX5310 Kioti tractor on his property in Drouin West.

With only one day a week free to use his new Kioti EX5310, Braith Trimble is determined to make every moment count – and take advantage of the Kioti's power and versatility. On a decent sized hobby farm that needed improvements, Braith has slashed, mulched, cleared, shifted soil and made hay. He could not be happier with his choice of tractor.

Braith Trimble leads a busy corporate life. He and his family recently moved onto a 32 acre property at Drouin West in Victoria. With an additional 6 acres of river frontage, it is a sloping property and can get wet underfoot. His new Kioti EX5310 has been up to the task.

"It's agile enough to get around on soft ground, but powerful enough to perform all of the tasks I need," says Braith. "Stability is no problem and in 4WD mode the traction is quite amazing. I bought it through The Tractor Company in Pakenham. Shannon and Kelly have been fantastic – really helpful overall."

Braith's Kioti is the ROPS model and features 12x12 synchro shuttle transmission, 62 l/pm hydraulic pump flow, 1.1 tonne rear lift capacity, three speed PTO and flat operation station. Although owning the EX5310 for only a short time, he has fully tested its capabilities.

"It comes with the front end loader and I also

bought a grader blade and a slasher," Braith says. "The idea was to restore the farm and that meant slashing, making hay, using the 4-in-1 bucket for gravel and mulch and clearing dead trees. The bucket makes things so much easier. Jobs that would take days if doing it by hand now take minutes."

Durability, simplicity and functionality to the fore with Kioti's DK4810 HST.

## DK SERIES

48 - 58 HP

Craig Gordon (left) from K.V. Equipment shares stories with Eppalock local Ernie Lowndes and Dorothy his faithful companion alongside his DK4810.

As a former contractor, Ernie Lowndes from Eppalock, Victoria spent many hours on the land performing all manner of farming tasks. Now on a smaller acreage, he needed a durable compact tractor, predominantly for shifting hay and fencing work. His local Kioti dealer K.V. Equipment put him behind the wheel of a DK4810 HST and he hasn't looked back.

Local identity Ernie Lowndes knows a thing or two about using and maintaining tractors. Before upgrading to a Kioti DK4810 HST, he had worked his old tractor since 1964. So, the new Kioti had to earn its stripes. Ernie has subdivided much of his Eppalock property but retains 100 acres for cattle and sheep.

"I was thinking about a smaller Kioti but Craig [Gordon] from K.V. Equipment suggested the bigger model and I'm glad he did," says Ernie. "His service and follow up has been really good. I'm using the Kioti mainly for carting, stacking and loading round bales. It has the 4-in-1 bucket and forks, which is very handy. It'll lift two bales at once."

The DK4810 HST is the 48 hp ROPS model, featuring three-range hydrostatic transmission, auto PTO, dual HST pedal – making forward and reverse changes a breeze – high ground clearance and a lift capacity of 1.2 tonne, making it the ideal compact tractor.

"It's great for general farm work, especially now that I don't have as much land," says Ernie. "I've used the bucket for moving soil and to lift posts out when I'm doing fencing. The automatic transmission makes driving it so easy; it really is excellent."

Kioti takes out the quadrella on the track at Wangaratta.

## **NX** SERIES

**60 HP**

Greg Brown (left) from Wangaratta Turf Club with Brendan Breen from McGregor Machinery talking horses and tractors alongside the NX6020 on the racecourse.

Some 140 horses train each morning at the Wangaratta Turf Club. With two sand tracks and two turf tracks, as well as the demands of race meetings, the maintenance activities are constant. McGregor Machinery has forged a terrific relationship with the club, supplying and servicing hard-working and reliable Kioti tractors for many years.

There's so much to do on and in between race days. Greg Brown is the track manager, overseeing maintaining, conditioning and improving the sand and turf tracks. He has four Kioti cabin tractors to help – the 105 hp PX1052, 60 hp NX6020, 42 hp CK4220 and the 24 hp K9 UTV.

"Yep, they're all Kiotis," says Greg. "The PX1052 tows a heavy-duty grooming machine, which weighs about a tonne, to fluff up and relevel the sand. We also use it for a lot of front end loading. The NX6020 pulls the race day starting barriers, plus we hook up a spray tank for pesticides and fertiliser spreading."

The beauty of the Kioti tractors is their simplicity and reliability. Greg knows each morning that whatever tasks he sets his team, the Kioti fleet will power through, whether it's loading, towing, rolling, spraying or transporting.

"We've also got a CK4220 for granule fertiliser

spreading," says Greg, "and it tows sand trailers and small aeration equipment. Then there's the K9 UTV, which we love. It runs around on race days and the tip tray is brilliant for unloading materials. We've never had an issue with our Kiotis, they don't miss a beat, and the service we get from Breeny [Brendan Breen] at McGregor Machinery is just outstanding."

Kioti's matches power with tech to make the RX8030 your perfect utility tractor.

# RX SERIES

60 - 80 HP

Gino Dimarco (far left) from Elders East Gippsland, stands alongside Bill and Sue Atkinson and their RX8030 Kioti tractor on their farm in Stratford.

There are times when demanding jobs need a heavily-built tractor. The Kioti RX8030 is the ideal utility, equipped with the intuitive tech you expect and underpinned by a solid frame and powerful, turbocharged Daedong engine. Available as a ROPS or cab, standard features include 24x24 fully-synchronised transmission, 4WD power steering, forward-reverse shuttle and independent rear PTO.

Bill and Sue Atkinson are on 97 acres at Stratford in Victoria's beautiful East Gippsland region. About one-third of the property is bush, and while the Atkinson's don't run cattle on the rest, they agist to nearby farmers.

"I had to replace an old 62 hp tractor," says Bill. "Talking to Gino [Dimarco] at Elders about what I really needed, he said that 80hp would be better. He was so right. The RX8030 has a better footprint; we're on soft country and I need traction and stability. It really is so handy."

Bill has the RX8030 cab version with the 4-in-1 bucket. He added a mulching mower from Gino and later, a woodchipper. He has mown heavy growth, picked up fallen trees, chipped wood and shifted dirt. And he loves stepping into the low-vibe, low-noise luxury cab.

"It's fully sealed, you put on the air-conditioning,

turn on the radio and off you go," says Bill. "The standout is the forward – reverse shuttle. To be able to flick a switch and go backwards makes things so much easier. Gino has been great; any issues at all he takes care of it straight away. I'm very happy with it."

From Supercars to Kioti's powerful PX1153 sets the pulse racing for one Victorian owner.

## PX SERIES

95 - 115 HP

Phil Munday (left) stands alongside Mark Cronin from Mansfield Power Ag with his PX1153 Kioti tractor on his property located near Yea.

Phil Munday knows about engines and performance, with a long history in the panel beating industry and major involvement as a motor racing sponsor and team owner. Two of Phil's Ford Mustangs still race in the Supercars championship. But it's the growl of the turbocharged, intercooled 115 hp Perkins engine in his new Kioti PX1153 that livens up his days now.

Phil has 80 acres in Murrindindi, Victoria, not far from Yea. The land is for grazing, mostly river flats, with a gentle undulation. Phil wants to redo fencing, establish laneways and work on the paddocks before reintroducing stock. For that, he needed a tractor with power and versatility.

"I did some research and went to see Mark Cronin at Mansfield Power Ag," says Phil. "He's one of those guys you need when you're not certain about stuff because he's such a straight shooter. They had a PX1153 sitting there and I thought, this is pretty much what I need."

Evolved from the popular Kioti PX1052, the PX1153 features bigger hydraulic pumps, bigger radials, electronic rear linkage, 3-point hitch external control and a very impressive 3,630 lift capacity. Under the hood lies a 4.4 litre, 4-cylinder Perkins, coupled via a wet clutch to Kioti's own 32F/32R transmission, featuring power shuttle.

"There's plenty of power, plenty of manoeuvrability and practicality," says Phil. "It has the four wheel drive and 115 horsepower; I was out slashing a couple of weeks ago and it was pretty hot, so I had the AC going and the radio on and I thought, this is pretty cool. I love my Kioti!"

Kicking goals with the Mechron 2200 UTV as Kioti and Carlton forge a new partnership.

# UTV SERIES

22 - 24 HP

Carlton Football Club players Harry McKay (left) and Gabriella Pound stand alongside Brendan O'Donnell from AgPower in Lilydale, with the two brand new Mechrons UTVs their club has now acquired for their home stadium.

Realising a shared spirit of strength, resilience and innovation, Kioti and the Carlton Football Club have joined forces, kicking goals on and off the field as part of a wider sponsorship deal with PFG Australia. The club now uses two 4x4 Kioti Mechron 2200 UTVs for multiple tasks in and around its training stadium, Ikon Park.

In late 2021, the Carlton Football Club announced a two-year extension with PFG Australia as a proud sponsor, which also included Kioti as a gold partner. While PFG is deeply involved with the Blues off the field, Kioti will feature on Carlton's match-day signage and across digital advertising.

Carlton CEO Brian Cook said the partnership renewal was another significant step forward: "We are delighted to have PFG Australia and Kioti as partners of the club for at least the next two years. With their unwavering commitment to customer service, PFG will undoubtedly enhance and add value to our network."

As one component of the partnership, Carlton FC took delivery of two brand new Kioti Mechron 2200 UTVs. These 4x4 utility vehicles are powered by a gutsy 22 hp Daedong engine, seat three, have a standard hydraulic bed lift and can carry a whopping half a tonne of cargo in the tray.

Brendan O'Donnell from AgPower in Lilydale, who are one of Kioti's longest serving dealers, was present at the club's famous Ikon Park headquarters in Melbourne's inner north to perform the handover. AgPower will be servicing and maintaining the Mechron UTVs while they are used for a variety of tasks around the footy club, including transporting gear and materials – and possibly even players!

\*Pricing ex Brisbane, Melbourne and Perth warehouses. Pre-delivery and freight charges may apply. Pricing available while stocks last.

<sup>^</sup>2.50%p.a. applies to new Kioti PX & RX tractor models only based on minimum 30% deposit and 36 monthly repayments. 3.50%p.a. applies to all other new Kioti tractor and UTVs based on minimum 30% deposit and 36 monthly repayments.

Standard fees and lending conditions apply to approved ABN holders. PFG Credit is not provided or intended for personal, domestic or household purposes. Note: Alternative special finance package rates, terms, deposits and structures are also available up to 5 years. PFG Credit is a division of De Lage Landen Pty Limited ABN 20 101 692 040.

Offers expire 31 August 2022.

# PFG CREDIT

**SIMPLE APPLICATION**  
- FAST APPROVAL

**UP TO \$250K**  
- NO FINANCIALS NEEDED

**TAILORED PAYMENT**  
OPTIONS

**FIXED INTEREST**  
RATES

**LOAN SECURED**  
BY EQUIPMENT ONLY

**PFG CREDIT** has been in operation for 15 years across the whole PFG Australia product range.

Our various finance packages ensure equipment repayments are tailored to your own cash flow requirements, whether that may be monthly, seasonal, or annual. A facility can be designed to conserve working capital, budget on a fixed rate, fixed term

and fixed repayments to suit your individual farming needs.

PFG Credit allows clients to acquire equipment without a heavy initial down payment, which means you can pay for it from your operating budget and not from your capital reserves. This allows you to free up capital that can be used to grow other parts of your business.

**CURRENT FINANCE OFFERS FOR KIOTI AUSTRALIA...**

**2.50% P.A.**  
available on new Kioti PX & RX tractor models based on 30% deposit and 36 monthly repayments\*

**3.50% P.A.**  
available on all other Kioti tractors & UTVs based on minimum 30% deposit and 36 monthly repayments\*

In addition to Kioti tractors, PFG Credit can also be used to finance a full range of other new & used farm equipment, plus commercial vehicles, telehandlers, excavators, pumps & irrigators. Contact the team at PFG Credit for an obligation free chat around your financing needs.
