FIND OUT MORE  
ABOUT THE  
Z200 SERIES

## Z200 SERIES RESIDENTIAL ZERO-TURN MOWER

### ZERO-TURN MANOEUVRABILITY

Mow around garden beds, trees and obstacles with ease

### HIGH QUALITY MOWER DECK

Heavy-duty 42", 48" or 54" fabricated mower decks deliver performance and reliability

### CUTTING HEIGHT DIAL

Simple changes to cutting height with the turn of a dial

### OPERATOR AREA

Comfortable seating position with plenty of legroom, adjustable handles, storage boxes and cup holders

Z412

## Z400 SERIES - SEMI-PROFESSIONAL ZERO-TURN MOWERS

Features rugged, commercial grade transmissions and powerful engines, designed to stand up in heavy duty applications

Adjustable dual levers provide smooth, precise control and ensure optimum comfort for every operator's needs

Soft and roomy, the high-back suspension seat keeps you comfortable during long mowing jobs, and there's plenty of legroom up front, thanks to a wide foot pan

All controls are ergonomically arranged for quick identification and simple operation

Steel welded mower decks provide outstanding, professional-level cutting performance, while the reinforced spindle mount area ensures durability. Available with 48" or 54" mower decks and grass catchers

ZD1221

## ZD SERIES PROFESSIONAL ZERO-TURN MOWERS

Equipped with high quality Kubota 3-cylinder diesel engines

Kubota's original hydrostatic transmission offers faster, smoother response under all loading conditions. Except for an occasional fluid change, the hermetically sealed structure requires no maintenance, with no belts to change

Comfortable bucket seats with suspension, ergonomic controls, large foot platform and LCD digital display

Choose from 54", 60" or 72" fabricated mower decks - side or rear discharge. The Aerodynamic Cutting System pro decks are designed to maximize cutting performance with smoother airflow and more powerful rotation, reducing fuel consumption, while improving productivity

Simple changes to cutting height with the turn of a dial. Raise and lower the mower deck with hydraulic pedals, and steer with levers requiring minimal operator force, keeping you comfortable all day

\*0.90% comparison rate based on \$10,000 secured loan for a term of 3 years. For both business and consumer borrowers. This offer is only available with a minimum 20% deposit, 24 monthly repayments and a minimum financed amount of \$4,000. Credit criteria applies. No upfront fees or account keeping fees. Fees may apply depending how loan is conducted. Credit provided by Kubota Australia Pty Ltd ABN 72005300621. Australian Credit Licence Number 442007. \*WARNING: The comparison rate is true only for the examples given and may not include all fees and charges. Different terms, fees or other loan amounts may result in a different comparison rate. This finance offer is available until 31/10/21 and applies to new Z Series models.

# Kubota MOWING RANGE

Kubota's high performance ride-on and out-front mowers are ideal for residential and commercial applications. With options of petrol or diesel, 2WD or 4WD models and a range of mowing deck sizes, you'll find one to take on any task this season.

GR2120 MOWERS

## T & GR SERIES RIDE-ON MOWERS

### PETROL OR DIESEL

T Series features powerful twin cylinder petrol engines, while the GR Series uses a reliable 3-cylinder Kubota diesel engine

### MOWER DECKS

T Series' fabricated mower decks provide years of dependable use. GR Series' contoured mower decks come in two sizes, 48" and 54"

### GLIDE STEER TECHNOLOGY

GR Series offers excellent turning ability with front wheels turning up to 70 degrees, while inside rear wheel tracks freely when completing turns

### ALL-WHEEL DRIVE

Perfect for rolling terrain, the GR Series all-wheel drive provides outstanding traction. GR features shaft-driven mower, transmission and PTO for trouble free operation

### RIDE-ON SIMPLICITY

Equipped with hydrostatic transmission for precise control

### OPERATOR AREA

Full flat operator platform, high-back seat and cruise control provide comfort during long operation

## F90 SERIES PROFESSIONAL OUT-FRONT 4WD MOWER

28 and 36 hp diesel engine models

Auto assist 4WD automatically controls the drive loads on wheels, allowing greater turning efficiency with less wear and tear on turf. Full-time 4WD can also be engaged

Your choice of 60" or 72" side or rear discharge heavy-duty pro commercial mower decks

2-range hydrostatic transmission

Includes deluxe high-back seat with four separate adjustments—weight control, lumbar support, back angle, and arm rests, as well as an easy to read LCD digital panel providing vital information at a glance

90-degree tilt mower deck provides unobstructed access to blades and deck underside for easy cleaning

61L fuel tank reduces downtime

Grass catcher available to order

F3690

# Kubota LAWNCARE RANGE

You can shape up this Spring with ease thanks to Kubota's reliable and user-friendly lawncare range. Cut down any project with precision using our hedgetrimmer, brushcutter or walk-behind mowers. When it's time to tidy up, Kubota's handheld blower offers knockout performance time and time again.

## SPRING SCULPTED

KBL31

### HANDHELD BLOWER

Robust and powerful, Kubota's handheld blower is designed to optimise your productivity

The KBL31 is powerful enough for professional users, for clearing dead leaves, cut grass or other waste

Being lightweight and simple to use also makes the handheld blower perfect for jobs around the house

W821SC

### SELF PROPELLED WALK-BEHIND MOWERS

Heavy duty aluminium die-cast deck with reinforcement for excellent durability

4 blades are standard for fine cutting

Shaft drive rear wheel transmission that greatly reduces maintenance work compared to belt-driven mowers

Blade clutch brake stops blades quickly for added safety and allows emptying of 75L grass bag safely, without stopping the engine

KHT23D

### HEDGETRIMMER

Well balanced, robust and reliable in design, Kubota's 2-stroke hedgetrimmer provides an impeccable clean cut with every pass to meet the needs of professionals and home owners alike

KBC26H-RS

### BRUSHCUTTERS

Designed for both home owners and contractors and is powered by reliable 2-stroke engines that keep on going. Designed with comfort and safety in mind, the heavy duty straight shaft models cushion vibrations for increased operator comfort. Single or double handle models available, plus additional attachments to suit every application and operator

<sup>A</sup>Customer Instant Rebate is subtracted from dealer's selling price as a discount at a time of sales and not redeemable for cash. The offer ends 31/10/21.

# Kubota UTILITY VEHICLES

Kubota's powerful RTV range will put a Spring in your step. Ready to tackle any task or terrain, our RTVs are engineered for optimum performance and reliability. Combining confidence and comfort, each model is equipped with the latest safety equipment and ergonomic driver set-up. You'll be ready for any season or situation as our range offers ROPS, CAB models, as well as a four-seater model. If you need to put your to-do list in the rear view mirror, check out the RTV-XG850 Sidekick, our fastest RTV yet.

# SPARTAN RANGE

Providing seasonal solutions since 1976, Great Plains Manufacturing based in Kansas, USA, is a trusted market leader in seeding equipment. Acquired by Kubota in 2016, Great Plains continues to be a leading global manufacturer of seeding and tillage equipment. A respected market leader in grain drills but also recognised as an innovator in tillage equipment, fertilizer applicators and precision planters. Whether it's vineyard seeders, specialist seed drills for fodder crops or precision planters, Great Plains has the right solution for your application.

SOLUTIONS FOR EVERY SEASON

**2 YEAR STANDARD WARRANTY\***  
ACROSS THE GREAT PLAINS RANGE

NTA607-2

## SPARTAN 6M & 9M NO-TILL DRILL

- Triple disc row unit with Turbo coulters
- 6" or 7.5" row spacing
- Double shoot as standard
- Integrated blockage monitor system included
- Individual row shut-off capability
- 3m Transport

INTEGRATED BLOCKAGE SENSORS AS STANDARD

**The Great Plains Spartan range has the versatility you need in a compact package.**

With up to 250kg of down pressure possible on each independently mounted Turbo coulters, the Spartan is a proven performer in tough no-till conditions.

NTA907-2

## MECHANICAL SEED DRILLS

- Working widths from 5ft (1.5m) to 20ft (6.1m)
- Mounted, semi-mounted or trailed
- Options for small seeds and dry fertilizer application
- Double disc (min-till) or triple disc (no-till)
- Row spacing from 6" (152mm)
- Individual depth adjustment on each row
- Full length seed tube guides seed to the bottom of the seed trench ensuring accurate placement

1500 DRILL WITH CENTRE PIVOT HITCH

V300F 3M NO-TILL DRILL

## V300F NO-TILL 3M DRILL

- 3.0m transport and working width
- 19 row - 6.22" (158mm) row spacing
- Large 3,100 litre hopper capacity
- Main seed, fertiliser and small seed
- Triple Disc - 18" Turbo Coulters with 00 Series Double Disc Opener min. 100HP
- Active hydraulic row unit down pressure system
- Full length calibration tray allows more convenient calibration
- Adjustable main box partition to change volume allocated to main seed and fertilizer

## MAX CHISEL VERTICAL TILLAGE

- Available in work widths of 3.5m to 7.3m
- Features a double row of 610mm discs with the patented Samurai Edge
- Heavy-duty Toggle-trip reset shanks with 38cm-spaced shanks

- Shank working depth up to 12" (305mm) and 1,111kg breakout
- Heavy rear roller with active hydraulic down pressure provides an excellent finish in all conditions

- Rear chopper reel finishing tool chops residue and smoothens finish
- Vertical tillage design principle allows aggressive tillage without developing density layers in soil

MC5319 MAX CHISEL - 19 SHANK, 7.3M TILLAGE WIDTH

# MOWERS & TEDDERS

Bringing versatility to the farm and beyond, Krone offers innovative hay & silage equipment to keep you ahead of the season. If you want clear cut performance, look no further than the Krone mowing range.

## CLEAR CUT PERFORMANCE

EC TRAILED MOWERS - ECTC 320 CRS

M-ROLL STEEL SUPER CONDITIONER

### EC TRAILED MOWERS

Trailed Mowers from 2.8m to 6.2m

New ECTC & ECTS (Trailed Centre & Side) mower range available in V-tine conditioner, rubber and M-Roll steel roller conditioner

ECTS360CR/S and ECTS360CV available with a wide working width of 3.6m

### ECB & ECF MOWER RANGE

Triple Combination Mowers from 8.7m to 10.1m

Large range of ECB and ECF mowers with new M-Roll steel super conditioner / rubber / V-tine / no conditioner and with or without cross conveyor for ECB mowers

High output rates and heavy construction for massively efficient mowing

Front-mounted mowers from 3.2m to 3.6m, with swath boards for narrow windrow on roller conditioner mowers

### ECR MOWER RANGE

Work widths 2.8m to 4.0m without conditioner. 2.8m and 3.2m conditioner models with new M-Roll, rubber rollers or V-tine conditioner

The world's best constructed linkage mower for Australia's tough conditions

DuoGrip Centre of Gravity Suspension System suspends the mower in its centre of gravity, guiding with two arms to maintain a uniform ground pressure across the entire working width

ECR 360

### EASycut TRAILED CENTRE 4M & 5M

Widest conditioner rollers in the industry

Optional 3m transport kit means you can switch from field to road position without leaving the cab for easy travel

4 conditioning systems available – non-conditioner, V-flail conditioner, rubber and steel roller conditioners

Steel conditioner design comes from North America (not an M-Roll), however, conditions very well in Australian high crop conditions

**COMPETITIVE FINANCE AVAILABLE**  
ask your local dealer  
**ACROSS THE KRONE RANGE**

EASycut TRAILED CENTRE - ETC 400/500 WITH OPTIONAL TRANSPORT KIT

### AM-R MOWER RANGE

Krone's entry level linkage mower

Working width from 2.4m to 3.6m

Quick change blades

Heavy headstock and blade box

Driven by drive shaft – no belts

AM-R320

### TEDDER RANGE

Linkage tedders with working widths from 4.6m to 11m

Trailed tedders with working widths from 8.8m to 19.6m

Krone's OctoLink clutches are always in mesh for full power and do not require greasing

Features the heaviest square tube frame on the market with the gearbox installed under the frame to maintain strength in the frame

KWT 1300

# SQUARE BALERS & RAKES

Krone's range of Big Square balers have been tested in Australian conditions and are proven performers, engineered with German technology. Krone offers the widest range of square balers including the Big Pack 6-knotter high speed, HDP Xtreme, the new Gen 5 HDP's and the legendary 8-knotter HDP II balers. With Krone's largest offering, you can always find the machine that best suits your business.

CONTINUE YOUR SUCCESS

BP1290 HDP II

BIG PACK HDP HS

SWADRO TC RAKE RANGE

## BIG PACK BALERS

Krone has set a new benchmark in large square bale production with the HDP II, with a world first: the development of a unique 8-knotter system

The Big Pack High Speed and HDP Xtreme balers are built on an industry leading platform with cam-less pick up, large up to 605kg flywheels, longer chamber doors and the most modern drive system with gearboxes and clutches. These machines are proven performers for several years

The new 5th Gen HDP Balers stand out with a brand new hydraulic knotter fan design, updates in the VFS pre chamber and many more points that improve comfort of operation and the durability

Twine boxes fold down hydraulically for easy refilling of twine

## SWADRO RAKES

Single rotor working widths 3.5m - 4.6m

The TC / TS Multi Rotor Range with working widths up to 19m in centre or side delivery

Fully enclosed gearbox with dry cam track design - no oil leaks

Your choice of height adjustment - mechanical or fully electric from the cab

Exceptionally strong frame for high stability and durability, setting the benchmark for four rotor raking with the new TC1370

# ROUND BALERS

Prepare for success with Krone, market leading performance and innovation demonstrates that there's no substitute. Krone boasts the largest range of round balers with exceptional features each one designed to enhance your results, year in, year out.

ONE PASS PERFECTION

NEW VARIPACK PLUS

## NEW VARIPACK FEATURES ACROSS THE RANGE

VariPack belt baler line up consists of the standard V165(XC), V190(XC) and Plus versions V165XCPlus and V190XCPlus, and now also includes the new V165Plus and V190Plus without cutter

V165(XC) produces bale diameters from 0.8m to 1.65m, and V190(XC) 0.8m to 1.9m

Highest productivity in the market

Bale chamber consists of four 275mm wide endless heavy duty belts for the highest bale densities in the market

Door cycle time of 4-5 seconds

EasyFlow camless pick-up

Integral rotor that integrates two feed rollers into either side of the rotor

New 3-zone bale density adjustment from cab

Easy insert net wrap system

Single axle with tyre size of 500/55-20 12 PR for standard models and 600/50 R22.5 for Plus models

Easiest drive system with 3-chain system

## COMPRIMA COMBI PACK

Facelift CV150XC-2 and new CV150XC Plus models available

W-pattern tine arrangement camless pick-up for constant flow of crop

Ultrasound sensor that replaces the sensor arms on the wrapping table

Extra wheel and rubber mat on the bale turner that effectively protects the paddock and drop down action of the bale turner

## FORTIMA ROUND BALER

Fixed chamber entry level F1250 producing 1.25m bales with low HP requirements

Choose from the variable V1500 (0.9 to 1.5m) and V1800 (0.9 to 1.8m)

Chain & slat provides high density bales and avoids fragmentation in dry hay or wet silage conditions

NEW CV150XC PLUS

Kubota

# U SERIES EXCAVATORS

Built on a foundation of performance and manoeuvrability, Kubota's U Series is the most extensive line up of sub 5-tonne, zero-tail swing excavators available in today's market. With unmatched cycle times, best-in-class breakout performance, superior comfort and all round versatility, the U Series has your groundwork covered.
