KIOTI

WHY SHOULD I BUY A KIOTI?

Kioti tractors are manufactured in South Korea for tough Australian conditions, and deliver a raft of features across our portfolio that are unique to the Kioti brand. Kioti simply delivers more bite for your dollar! But it's our customers who say it best...

WHO IS KIOTI AUSTRALIA?

Underpinning the success of Kioti tractors are three major factors:

- all products are manufactured in South Korea to maintain premium standards
- a philosophy of unswerving attention to the needs of the farmer
- a keen eye for the very best in practical engineering and design

Many South Korean companies and products, like Kioti, have become household names around the world: **Samsung Electronics, Hyundai Motors, LG Electronics, Hankook Tyres and Kia Motors**, to name a few.

Kioti's parent company, Daedong Industrial Co Ltd has led the way in developing world class farming machinery for many decades. The company's many achievements have been recognised by Export and Design awards and Gold Level Status from the North American Equipment Dealers Association.

From its South Korean headquarters through all its subsidiaries and affiliates, Kioti/Daedong continues to maintain a culture of eco-friendly product development, responsiveness to market needs and rigorous quality assurance. Today Kioti/Daedong products have a secure global market across 60 countries.

PFG Australia works in partnership with Kioti South Korea to deliver a product portfolio dedicated to the challenging Australian conditions. Our commitment to our industry has never been stronger with our national dealer network, dedicated parts, service and distribution centres and unparalleled aftersales service which are the keys to our ongoing success.

It's a partnership that has made this South Korean giant a household name throughout Australasia.

"I'VE HAD MY KIOTI FOR 4 YEARS AND IT'S BEEN BRILLIANT"

"WE'VE BEEN USING KIOTI TRACTORS FOR YEARS, AND WE HIGHLY RECOMMEND THEM"

"IT'S EASY TO OPERATE, VERY RELIABLE, AND VERY COMFORTABLE"

"GREAT VALUE FOR MONEY, AND YOU GET MORE FEATURES ALSO"

"I USED TO BUY ANOTHER BRAND, BUT I WON'T BE GOING BACK, IT'S A GREAT PERFORMER"

"IT'S THE BEST, I LOVE USING IT"

THE NAME BEHIND THE BRAND...

PFG Australia is a wholly owned subsidiary of Power Farming Wholesale Ltd.

This privately-owned company, headquartered in New Zealand, has a three generation history of service to Australian and New Zealand tractor markets.

PFG Australia sources leading tractor and agricultural machinery brands from around the world, distributing them through extensive national dealer networks, and servicing the market from several strategically located distribution hubs.

Products are trialled at PFG Australia's 4.5ha purpose-built headquarters in Derrimut, Victoria, with onsite fieldwork demonstrations, warehousing and display areas, conference facilities and service training centre.

Without exception, brands chosen by PFG Australia are best-in-class products incorporating the latest in technology and design.

For 20 years, PFG Australia has selected the best Kioti products to suit the needs of farmers here, with support from a strong national network of 85 dealers.

On this, the 20th anniversary of Kioti in Australia, the team at PFG Australia would like to thank Daedong Industrial Co. for consistent supply and ongoing development of great Kioti products.

We also want to thank our skilful and knowledgeable dealers for all their hard work. And last but not least, we want to thank our loyal customers for their appreciation and enjoyment of Kioti products. 20,000 units sold by 2020.

CS2610 ROPS

THE BEST VALUE TRACTOR FOR SMALL ACREAGE ALSO DELIVERS NIFTY VERSATILITY WHERE IT'S NEEDED.

Whether it's for mowing, digging holes, grading driveways or moving materials with the standard 4-in-1 loader, this subcompact tractor will reliably save hours of labour and is very easy to use.

The workstation is ergonomically designed for comfort and safety. Controls are perfectly located and the seat is adjustable. The high impact flat polymer operator platform reduces vibration and it's easy to clean. There's plenty of room to get on and off, and no obstructions.

Modern design and a 26hp Shibaura diesel engine make it highly economical to run and maintain. Access for daily check overs is simple with a one piece bonnet, while the front mounted radiator ensures good airflow with a maintenance screen.

Operating the twin pedal side-by-side HST foot control feels easy and natural, delivering quick, smooth forward and reverse motion. With very responsive power steering and standard industrial tyres, the CS2610 tractor feels great to drive on flat or undulating terrain.

CK3710 ROPS

DEFINITELY OUR MOST POPULAR TRACTOR FOR SMALL TO MEDIUM ACREAGE, THANKS TO GREAT KIOTI VALUE AND UNBEATABLE SPECS.

Available in several configurations with transmissions to suit different requirements, the CK line-up includes ROPS model CK3710 (37hp) to CK4220 (42hp) Cab. All have fuel efficient Kioti liquid-cooled diesel engines, eco-friendly and designed to lower noise and vibration. Practically designed for safety and comfort, they have a deluxe seat, operator weight adjustment, suspension system, flat operator platform and generous entry and exit areas.

Choose from efficient 3 range hydrostatic transmission with convenient twin pedal foot control or optional manual 9 forward and 3 reverse speeds in the CK4210 and CK4220 model. The HST link pedal acts as an automatic throttle with the operator's transmission input. HST models also have cruise control and heavy duty HST drives for smooth, powerful operation.

Cast iron transmission and axle housing deliver strength and stability, and high ground clearance makes work easier on rocky or uneven ground. These tractors are built to work and built to last. They are easy to operate with ergonomically placed controls, easy to store due to their compact size, and extremely easy to manoeuvre with 4WD, hydraulic power steering, standard integrated hydraulic joystick, independent oil-immersed brakes and rear differential lock.

PX1052 CAB

A GREAT TRACTOR IS EASY TO USE, COMFORTABLE, RESPONSIVE, ECONOMICAL AND RELIABLE WITH PLENTY OF POWER.

Meet Kioti's PX9520 to PX1153 - all the features that make a great tractor and so many of them are standard. Starting at 95hp to 115hp and powered by trusted Perkins low vibration four-cylinder diesel engines, this model is a pleasure to operate, with excellent fuel efficiency, powerful hydraulics and a good sized fuel tank.

The air-conditioned/heated cabin is quiet, roomy and comfortable with a flat obstruction-free platform, well planned ergonomic comforts and excellent visibility through wide windshields. Whether they are used for repetitive loader work, slashing, spraying, pasture maintenance or hay work, including loading big square bales, tough frames and well engineered design make all the difference. Features such as integrated joystick loader control, push button transition from 2WD to 4WD, and an impressive 2400kg 3-point linkage lift capacity make work easier, safer and far more productive.

With a standard wet clutch and smooth efficient 32 forward/32 reverse Powershuttle transmission, standard electric de-clutch button and hydraulic Hi/Lo splitter in the PX1052 and PX1153, standard 4-in-1 loader and standard 2 speed PTO with 540/1000rpm plus auto stop, the PX tractor is a top performer delivering real value for money.

RX7030 ROPS

HAVE CONFIDENCE IN THE RIGHT CHOICE OF TRACTOR WITH KIOTI'S HARDWORKING, DURABLE AND FUEL EFFICIENT RX SERIES ROPS MODELS.

These high quality RX7030 - RX8030 Cab and ROPS utility models with Kioti diesel engines, powerful hydraulics, large fuel tanks and impressive 3-point linkage lift capacity also have many standard features, increasing the value without extra expense. Heavily built with plenty of power for a diverse range of operations such as spraying, ploughing, fertilising, slashing, sowing, loading, general clear ups and pasture maintenance, the RX series comes with standard 4-in-1 loader, standard 2-speed PTO and standard 2 sets hydraulic rear remotes.

The 24 x 24 transmission with creeper provides the perfect speed for every job. Standard wet clutch with hydraulic forward/reverse shuttle and the standard electric de-clutch button make driving easy with no clutch pedal needed to change gear. A one-push switch activates hydraulic 4WD on-the-go.

Truly comfortable ergonomic design puts pleasure back into long working hours. Simple operation, control at your fingertips, easy manoeuvrability with a good turning circle, and 360 degree visibility for safer loader work are features that contribute all day every day to the sense of a good job well done.

EX5310 ROPS

**EXCEPTIONAL FEATURES AND GREAT VALUE MEANS
THE KIOTI EX UTILITY RANGE WILL NOT DISAPPOINT.**

EX5310 53hp ROPS for EXtra power, EXtra standard features, EXtra comfort. When a tractor offers unbeatable value and clearly outperforms the competition, it's time to take an EXtra close look. The measure that makes a tractor a true asset is the boost it gives to productivity. It has to deliver power and versatility for a wide range of applications, day in, day out, season after season. At 62.4 lpm, the EX5310 has the best hydraulic system flow in its class. Add to that a 12 x 12 smooth synchro shuttle transmission, 2 sets standard rear remotes, a generous 3pl lift capacity of 1131kg, standard loader with 4-in-one bucket and standard 3-speed auto PTO.

The flat platform operator area has a no-slip mat, standard foot-activated tilt steering column and deluxe fully adjustable suspension seat for all-day comfort. High ground speed, push button 4WD, and power steering give you confidence, traction and excellent maneuverability in changing ground conditions.

Whether you compare specs and crunch the numbers yourself, or have a chat with your local dealer, the EX5310 adds up to a great choice.

Available in two engine configurations, 53hp and 58hp.

THE PX1153

OUR MOST
POWERFUL TRACTOR

CUSTOMER FEATURE

MEET

**ERNIE
SCHEIDL**

FROM KOORINE, SOUTH AUSTRALIA

Ernie says the 75hp Kioti he purchased 10 years ago is still one of the best machines he has ever bought - but his new PX1153 sets new standards.

Ernie and his wife Lynece live at Koorine, SA, farming 750 acres with Black Angus breeding cattle, first cross ewes, and grow most of their own fodder.

IT'S ABSOLUTELY THE RIGHT CHOICE - ERNIE

In February this year, they took delivery of a brand new Kioti 115hp PX1153 cabin tractor with front end loader. Ernie said he researched four other major brands before choosing the Kioti PX.

"We've had a 75hp Kioti tractor doing all the general farmwork for ten years but technology has moved on during that time and I wanted to be sure I was getting the best tractor possible.

"We've increased our cattle numbers and we're cutting our own hay and silage on hilly country, so we wanted a heavier, more powerful tractor, but we **still needed real versatility,**" he said.

After checking the other brands, Ernie took a tour of PFG Australia headquarters and had a test drive in the Kioti PX1153 tractor.

"I was extremely impressed with the operations at PFG headquarters, and the local Casterton dealership is a new business run by a young family. My new Kioti was their very first tractor sale and we're very happy with the service they gave us," he said.

"The PX1153 has more modern technology than our old Kioti but there's still a feeling of familiarity and easy operating. The old tractor is comfortable but this new PX is so much better it's like driving my ute.

"The 75hp Kioti now does all our feeding out and our PX1153 handles everything else. We've used it for loading, fencing, seeding, slashing, upgrading pastures, repairing tracks and grading laneways. **It's such a strong versatile machine with plenty of weight and power.**

"It's very impressive when you're doing loader work with it. We sent hay and silage to NSW and Kangaroo Island during the drought and it was **so easy to load** onto the semis with this tractor. Even the drivers were impressed, and they'd seen a lot of tractors loading.

"It's also got the best visibility of any of the tractors I looked at, and that's an important safety concern for us. The head lights and rear working lights are also excellent when I'm out there finishing up jobs in the dark.

"It's fair to say the PX1153 has made our work easier, safer, more comfortable and much more enjoyable. You're out there for hours and you want to get the best machine you can for yourself and your staff. **We're extremely happy with this tractor. It's absolutely the right choice.**"

PFG AUSTRALIA

Fire Relief 2020

As part of PFG's Fire Relief 2020 program James Peel from JTP Machinery in Brogo supplied a Kioti PX1052 for Ron Dale in Quaama in the Bega Valley region of NSW.

Australia has faced the most severe and damaging fires in our history and the road to recovery will be long and demanding. PFG Australia in partnership with eight of our tractor and machinery dealerships in affected areas have launched a "Fire Relief Program 2020" assisting farmers and communities in East/North Eastern Victoria, Southern New South Wales, the Hunter Region and Kangaroo Island. We are extremely proud to have Kioti Australia playing a huge part in the rebuild.

As a primary supplier and partner to the Australian Agriculture Industry we have the ability to support farmers, customers and regional communities affected by the recent fires by providing feed for livestock and through to and including rebuilding our farms and communities. Below is an article about Ron Dale from NSW who was a Kioti owner prior and his incredible story during the fire and how Kioti Tractors came to lend a much needed hand.

With the fires bearing down in his property at Quaama in the Bega Valley region of New South Wales, Ron Dale by his own admission pulled a sleight of hand.

"We got warning at about 1am when the neighbours rang," said Ron. "We could see the fire coming from the west and could hear the roar. We made the decision at 2am to wake everyone in the house. Being New Year's Eve we had about 20 people staying, include six grandchildren. By 3am they were all gone except me and my son-in-law. We didn't tell our other halves - they thought we were following in another car."

Sandwiched by the typically picturesque Wadbilliga National Park on one side and the Biamanga National Park on the other, the valley copped the full brunt of the recent bushfires, with flames coming from different directions. Ron's farm, some 150 acres of pasture with sheep and cattle being run, was directly in its path.

"The first fire came from the west and hit my neighbour's place. This was at 6am. Then from the north - it actually took my shed before we saw the fire coming. Visibility was practically zero at this stage. We stopped the first front about 20 metres in front of

the house and then picked a dead point, an area already burnt, and fought the fire from there.

"I actually broke our own rule, though, which was not to go beyond the hose limit. I thought we were beating this thing and went beyond the limit and the fire flashed over me. It burnt some of my hair and I'm steroids due to smoke inhalation. My son-in-law thought he had lost me; I had to go back through the fire.

"Then the next front hit at about 6.30am but we kept it out. My son-in-law was fighting it with the hose in one hand and a stubby in the other! But then the southern front hit and that did all the damage. We lost a 100 year old shed, plus outbuildings, all pasture and fencing. Our stock came through okay but three or four days later some of the younger cattle started to lie down and die because of smoke inhalation."

Ron also lost his workhorse - a Kioti tractor - which had been purchased from James Peel at JTP Machinery in Brogo. In addition to the loss of infrastructure and livestock, Ron said that losing the tractor made him feel "pretty knackered".

Enter James; as part of PFG's Fire Relief 2020 program he quickly organised a replacement, allowing Ron to press ahead with mopping up operations around the farm.

"We have a Kioti PX1052 cab tractor with 4-in-1 bucket," said James, "going from farm to farm for people to use to clean up and move hay around. Ron was first on the list."

As soon as the Kioti was dropped off Ron set to work, mindful of the dangers of fallen timber and smouldering trees. He moved around the farm to pick up burnt machinery and clear the timber before passing on the tractor to neighbours who used it for similar purposes. Despite the close shave and losses, Ron was grateful for the donation and certainly hasn't lost his trademark humour.

"The first thing I did with the Kioti was stack hay inside the hayshed. Of everything we lost, the irony is the hayshed is still standing.

Can you believe that?"

For more info about PFG Australia's Fire Relief 2020 please phone **03 8353 3600** or visit **www.pfgaustralia.com.au/fire-relief-2020**

We don't just sell tractors...

THE MECHRON RANGE IS ONE OF OUR GREAT SECRETS... BUT NOT FOR MUCH LONGER.

Versatile, tough and highly manoeuvrable with many safety features, it has a well earned reputation as the ultimate utility vehicle for work or play.

A flat operator platform and generous bench seat with three seat belts can comfortably accommodate three people, further protected by a strong tubular steel ROPS frame and optional sun canopy.

Power up for acceleration, towing or driving on undulating terrain with standard power steering, two-range CVT transmission, four-wheel-drive and proven Daedong diesel engines, with the added benefits of lower running costs and easy maintenance. Factor in the impressive payload capacity, the standard hydraulic tip tray, and the widest cargo bed in its class, and it's easy to understand the Mechron's widespread popularity. The 2230 model has an extended wheelbase and cargo tray for even more utility.

Front independent MacPherson struts and adjustable rear suspension give the smoothest possible ride even under load. Long lasting front and rear hydraulic disc

brakes, rear diff lock and high ground clearance help to ensure safety and control.

The new 24hp K9 model offers an improved digital dashboard with ergonomic control layout, tilt steering, standard half doors to increase occupant safety, and up to 50km/h road speed. The Mechron is the perfect utility choice for a wide range of applications and circumstances including farms of all sizes, orchards, vineyards, lifestyle blocks, horticulture operations, environmental and construction situations, and grounds maintenance.

Call **1800 186 866** for more info

OUR 4 YEAR WARRANTY

All Kioti Tractors ranging from 26hp up to 115hp come with a **standard two year or 1,500 hour warranty** covering all components on the tractor.

To compliment this great coverage Kioti Tractors have an additional Driveline coverage to a maximum of four years or 2,000 hours for all models, which is standard with every tractor purchased.

This coverage is a manufacturers coverage and not offered by a third party insurer and has no extra costs or excess required to be paid.

A basic overview of the coverage includes engine, transmission, differentials, axles and all parts contained therein.

So for four years or 2,000 hour warranty your Kioti tractor will have coverage on all major components and everything in between.

*24 months 1500 hours Full Warranty. 48 months 2000 hours Powertrain Warranty.

FINANCE FOR YOUR KIOTI

IN TODAY'S MARKETPLACE, BUSINESSES CONSIDER COMPETITIVE TAILORED FINANCING OPTIONS JUST AS IMPORTANT AS THE EQUIPMENT FEATURES AND BENEFITS WHEN THEY ACQUIRE MACHINERY.

PFG Credit offers comprehensive financing programs based on innovative financial products to meet the individual needs of our customers.

PFG Credit is provided by De Lage Landen Limited part of the global Rabobank Group - the world's largest agricultural lender. Their knowledge of the Australian rural industry and machinery markets means that customers can get the deal they need.

The various PFG Credit products available to clients are designed to allow businesses to conserve working capital, budget on a fixed rate, fixed term and fixed repayments to suit their cash flow.

Our market leading application and approval process can now be undertaken over the phone with security maintained only on the purchased machinery and approvals provided within 24 hours. We are here to help.
