Kubota[®]

FORCE
OF
NATURE

SHAPING AUSTRALIA

KUBOTA.COM.AU

This spring, take on Australia's unpredictable conditions with Kubota.

Whether you're working countrysides or cityscapes, each machine is made to endure anything you or the elements can throw at it.

You have the will, Kubota has the way.

Together, we can be a force of nature.

KUBOTA. SHAPING AUSTRALIA.

SQUARE BALERS

World first HDPII unique 8-knotter system to handle the extremely heavy bales.

Can produce up to 90% higher throughputs or up to 10% more density at the same ground speed than our original HDP.

The Variable Fill System (VFS) offers the highest throughput, 5-phase feed sequence for the bale chamber, offering rock-solid and well-formed bales, even in small windrows.

HDPII twine boxes fold down hydraulically for easy refilling of twine.

2.9% P.A.
FINANCE FOR
48 MONTHS*
across the Krone range

ROUND BALERS

COMPRIMA

Comprima design update includes new side panels and guards at the rear as well as a new lighting system.

W-pattern tine arrangement rather than straight line for a constant flow of crop.

The largest in market 530mm feed rotor for super-efficient throughput.

Pendulum mechanism for the EasyFlow Pickup ensures perfect contour following.

Krone's unique NovoGrip Belt & Slat Elevator system comes with a 3-year or 30,000 Bale Warranty.

FORTIMA

Updates to Fortima Round Baler range including a new crop feed roller and new feed rotor for non-cutter models.

Choose from the new V1500 (0.9 to 1.5m) or V1800 (0.9 to 1.8m).

Chain and slat provides high-density bales and avoids fragmentation in dry hay or wet silage conditions.

SEED DRILL

The SD Series is the ideal machine for small, medium and large-sized farms and combines a compact, light design with the proven Kubota quality.

Working widths in 3.0, 3.5 and 4.0m are available.

Due to the large hopper volume and electronic control of the seeder, set-up times are reduced and performance is increased.

MAKE
EFFICIENCY
SECOND NATURE

Designed to deliver unrivalled precision and unwavering reliability,
Kubota Implements have you covered this spring.
From cultivating to mulching - and everything between,
it's equipment you can always count on to get the job done.

COMPACT DISCS

Robust disc arms and high capacity bearings deliver excellent durability.

Maintenance-free bearings.

Choice of 2 rollers.

Actipack roller for clod crushing and very firm re-compaction of the soil.

Easily adapted for heavy and sticky soil conditions.

Cage roller may be selected for a more economical option.

SH Box is the ideal factory fit seeding option.

Conical-shaped hardened disc ensures constant cutting angle independently of the disc diameter with extra-long wear life.

POWER HARROWS

PH Series suit small tractors right through to large 400 PTO HP tractors.

Self-supporting trough construction, as well as standard 'Quick-Fit' tine holders.

Conical bearings offer optimum performance.

Working widths from 2.5m up to 6m folding.

A range of seeding options also available to suit Kubota Power Harrows.
