

Specifications

Model name			RTV-X		RTV-X CREW	
Grade			Basic		Premium	
Color			Orange		Standard	
Engine	Make and model		KUBOTA D1105-E4-UV			
	Type		3-cylinders, 4-cycle, diesel, OHV			
	Displacement	cu.in (cc)	68.5 (1,123)			
	Horsepower	HP (kW) / rpm	24.8 (18.5) @3,000			
	Cooling system		Liquid			
Battery			670 CCA			
Transmission			Variable hydro transmission (VHT-X)			
Gear selection			Hi-Lo range forward, neutral, reverse			
Max. traveling speed			0-40			
4WD system	Front differential		Limited-slip differential			
	Rear differential		Foot operated differential lock			
Steering			Hydrostatic power steering			
Brakes	Front / Rear		Wet-disk brakes			
	Parking brake		Rear wheel, hand operated			
Suspension	Front / Rear		Independent, Dual A-arms with adjustable spring preload / Independent with coil over shock			
	Front / Rear suspension travel	mm	205 / 205			
Ground clearance	Front	mm	265			285
	Rear	mm	260			240
Headlights			LED (Low)		LED (High / Low)	
Occupant Protective System (OPS)	Tubular overhead structure		50.8 (steel tube)			
	Seat belts		2-point			
	Certification		SAE J2194 and OSHA 1928 ROPS			
Dimensions	Length	mm	3,050		3,123	
	Width	mm			1,605	
	Height, overall	mm	2,020		2,025	
	Front tread centers	mm	1,240		1,280	
	Rear tread centers	mm	1,240		1,280	
	Wheelbase	mm	2,045		2,495	
	Turning radius	m	4.0		5.2	
Weight	kg	935		957		
Towing capacity	kg	1,000		590		
Payload capacity	kg	685		663		
Cargo bed	Material		Steel			
	Width x Length x Depth	mm	1,465 x 1,030 x 285			row 1 : 1,465 x 1,300 x 285 row 2 : 1,465 x 660 x 285
	Volume	m³	0.43			row 1 : 19.1 row 2 : 9.9
	Bed height (unloaded)	mm	887			900
	Capacity	kg	500			row 1 : 500 row 2 : 300
	Hydraulic bed lift		Available		Equipped	
	Spray-on bed liner		Not available		Equipped	
ProKonvert		Not available		Equipped		
Fuel tank capacity			L		30	
Sound rating at operator's ear at max rpm			db. (A)		84	
Tires	ATV (All Terrain)		Available		Equipped	
					25 x 10-12, 6-ply	
	HDMP (Heavy Duty Multi-Purpose)		Equipped		Equipped	
					25 x 10-12, 6-ply	
Alloy wheel			Available		Equipped	
Standard front guard			Basic		Premium	
					Standard	

The company reserves the right to change the above specifications without notice. This brochure is for descriptive purposes only. Please contact your local Kubota dealer for warranty and safety information. The values in "Ground clearance" and "Weight" are those of the machine equipped with the tires in the table above. Some RTVs in this brochure are shown with optional accessories. For off-highway use only.

KUBOTA 4WD DIESEL UTILITY VEHICLE

RTV-X Series

For Earth, For Life
Kubota

*This information is sourced from overseas and may not necessarily apply locally. It is essential that you confirm specifications and other information with your local Kubota dealer.

The new RTV-X Series features two unique workhorse diesel utility-vehicles that help power your productivity, are tough and dependable and make you reimagine what a UTV is capable of.

RTV-X

When you have a job to get done look no further than the RTV-X. Seating for two and powered by our Kubota diesel engine, this machine is driven to do more. From farms to universities, construction sites to hunting, and everywhere in between. The RTV-X helps power your productivity and won't stop until the job is complete.

RTV-X CREW

Easily transform the machine from a 1-row model with extra cargo bed space to a 2-row machine for additional passengers. Much like the other models in the X-Series lineup, the RTV-X CREW powers your productivity, is tough and dependable and makes you reimagine what a utility-vehicle is capable of.

Powerful Towing Capacity (Shoe-HST)

Standard two-inch hitch receivers are located at the front and back. New Shoe-HST increase towing capacity from 590 kg to 1,000 kg (rear hitch).* RTV-X provide powerful work performance in heavy duty task. Also, it will keep the work performance regardless of hilly area.

*RTV-X CREW's towing capacity is 590kg.

Easy Cargo Bed Access

The ROPS structure provides a clean look and easy access to the cargo bed, in both 1-row and 2-row configurations. Customers can utilize the hydraulic dump bed in either configuration, allowing you to power your productivity.

1 or 2-Row Convertibility

Whether you need to bring more people, or haul more stuff - the RTV-X CREW transforms from a 1-row to a 2-row machine in a few simple steps. Plus with industry-leading cargo capacity in a 2-row configuration you can re-imagine what a UTV is capable of.

DRIVEN TO DO MORE

TOUGH & DEPENDABLE

POWER YOUR PRODUCTIVITY

CAPABILITY RE-IMAGINED

Kubota continues its legacy with the introduction of the new RTV-X Series. The new model brings with it the foundational features that have made the X-Series so popular. This includes the Kubota Diesel Engine, VHT-X transmission and hydraulic dump bed and power steering. Besides those features that customers have come to love about the X-Series, the new RTV-X Series reaches a new level of refinement for Kubota utility vehicles. New features include a redesigned and aggressive exterior, LED headlights, new heavy-duty multipurpose tires, and a convertible cargo box - available on select trims. No matter what job you have to get done, or how you like to spend your free-time, the RTV-X Series is built to outwork!

TOUGH & DEPENDABLE

KUBOTA DIESEL ENGINE

**KUBOTA
ENGINE**

The legacy of the X-Series begins with the Kubota Diesel Engine at the heart of the new RTV-X. From towing and hauling to running through rough terrain the power provided by the engine ensures the machine will consistently show up to work as hard as you.

VHT-X (Variable Hydraulic Transmission)

Kubota's VHT-X provides exceptional performance on various terrain with smooth and powerful acceleration. Low-speed driving is made exceptional through smooth throttle control, great traction and maneuverability with or without loads.

Wet Disk Brakes

The RTV-X Series uses multi-disk wet brakes which provide an excellent brake life. You'll also feel more secure, especially when traveling down long inclines, knowing that dynamic braking is helping to provide additional braking power and greater driving control.

Radiator Grill

Open the hood, and you'll find the radiator and air-intake located high and up front, where the air is cleaner and cooler. This helps both radiator performance and allows for quick access. Kubota's wide fin pitch design reduces clogging, further improving radiator performance.

Full Steel Frame

The high-rigidity steel frame helps isolate the occupants from noise and vibration. The structural strength of this frame can hold up to many different tasks and seasons, to help you power your productivity.

CV Joint Guard & Underbody Skid Plate

CV joint guards and heavy duty skid plates will protect the most critical parts of the engine and transmission.

Steel Cargo Bed (Spray-on Bed Liner)

The factory-installed bed liner helps protect the cargo bed from dirt and damage. Four tie-down hooks in the corners help keep loads in place.

*Spray-on Bed Liner is not available on RTV-X Basic model.

POWER YOUR PRODUCTIVITY

Cargo Bed Capacity

It's not enough to get you there and back. You need to get your stuff there and back, as well. This heavy-duty steel cargo box can do that for you, carrying up to a half-ton (1,102 lbs.) of tools, firewood, gear, supplies...whatever you need to haul from here to there and back again. Cargo tie-down hooks help keep your gear secure.

New Heavy Duty Tire

The new tire, which comes on select RTV-X models, are designed to match the aesthetic appeal of the exterior with more aggressive styling. Additionally, the tires hold up better* to wear, especially on paved surfaces.

*Compared to HDWS tire. Based on internal testing results.

Hydraulic Bed Dump

With the flick of a single lever, the hydraulic-lift cargo box rises and your cargo slides out. Cargo that could take significant physical strength and time to unload can now be dumped quickly with little effort.

Dynamic Brakes

One of the major benefits of the VHT-X transmission is the dynamic braking, which slows the vehicle down when you remove your foot from the throttle. It also provides drivers a sense of confidence as they travel down slopes. The ability to utilize one pedal operation creates a great experience, for both novice and experienced drivers alike.

Full-time 4WD

The selectable full-time 4WD system ensures outstanding traveling performance even under heavy loads, providing superior traction and excellent control under a wide range of terrain conditions. The 4WD system can easily be turned off when 2WD is sufficient for current driving conditions.

Hydraulic Power Steering

Responsive hydraulic power steering helps give you the control you need to tame almost any terrain. The steering wheel is tilt-adjustable, allowing you to set the optimum angle for your driving style.

Limited-Slip Differential

True 4WD with a limited-slip front differential and a locking rear differential help reduce wheelspin to a minimum, giving you greater control and a smoother ride on rough or muddy terrain.

CAPABILITY RE-IMAGINED

PROKONVERT CARGO BED

3-Way-Open

The new bed design allows you to open from either side, or the rear - especially useful for easily loading items in the back of the bed.

*3-Way-Open is not available on RTV-X Basic model and RTV-X CREW.

Bed Liner

The steel cargo bed is a big advantage for our Kubota X-Series, but we don't stop there. On the new cargo bed, we utilize a spray on liner to help reduce scratches and dents, for a more durable loading surface.

*Spray-on bed liner is not available on RTV-X Basic model.

Flatbed Conversion

For customers loading bulky or awkwardly shaped materials, or having to load the bed with another piece of equipment, customers can easily convert the cargo bed into a flatbed without the use of any tools. A shining example of capability re-imagined.

*Flatbed conversion is not available on RTV-X Basic model and RTV-X CREW.

LED Headlights

For the jobs that begin well-before the sun rises and continue on long-after the sun sets, the new LED headlights not only look cool, they illuminate the way so you can stay focused on the job at hand.

Maneuverability With Loads

Vehicle performance is one thing, but being able to maintain consistent performance under pressure is another. The vehicle handles extremely well with cargo in the bed - especially valuable for those moving materials, tools or equipment throughout the day.

Specialized Cargo Dump

The VHT-X transmission allows us to utilize a hydraulic bed dump, available on all models except the basic model, which raises and lowers much easier and faster than the competition. Additionally, you are able to control the speed of the movement for more precise applications.

*Specialized Cargo Dump is optional for RTV-X Basic model.
