

# TRIMAX MOWERS

*Now available in Galv!*

## WHY BUY GALVANISED?

- ✓ **CORROSION RESISTANT** against coastal salt laden environments, recycled irrigation water and fertiliser
- ✓ **INCREASED RESALE VALUE** due to a more desirable mower body condition
- ✓ **LESS MAINTENANCE** and reduced total cost of ownership

### PRODUCTS AVAILABLE IN GALV

#### Stealth S3

Designed to mow sports fields and open spaces to a high standard, Stealth S3 has redefined what a wing mower should offer: low maintenance and ease of operation, stand on covers for safe tractor hook up and secure cab operated wing lock system, and now with Quattro Blades as an option.

#### ProCut S4

Engineered to withstand everyday use in commercial grass cutting environments, ProCut S4 has LocTEK Roller Bearing Retention and stand on covers for safer tractor hook up. This robust machine will deliver a high-quality cut similar to a reel mower.

#### Pegasus S4

Pegasus has become the benchmark in Municipal Sports Field Mowing. With lower maintenance costs and LocTEK Roller Bearing Retention, Pegasus has a wide range of options to suit your mowing environment.
